This document is subject to change throughout the academic year

A catering service provided by ANSAMBLE is offered to ICE students for the academic year 2021-2022. If Parents do not wish to register their child for this service, they can send with him/her a nutritious lunch box labeled with their name to school.

Elementary students may bring morning and/or afternoon snacks. Classroom rules apply. Parents of children with food allergies must send a lunch box and inform the child's Teacher and school nurse in written by email of the type of allergy.

Allergy protocols must be known by the school nurse and the concerned teachers.

It is strictly forbidden to bring nut based products and cans.

ICE will not be held responsible for allergic reactions to the school catering service, should the parent elect not to send a lunch box for students with allergies. No food exception can be taken into consideration by the caterer at the school restaurant.
