

iPad® (Apple product)

Exclusive pedagogical tool and constituent of school supplies for Grades 5, 6, 7, 8, 9, 10 and 11 (CM2 to 1ère)

iPad® pedagogical tool guidelines (updated 29/06/2026)

Please refer to the updated [DIGITAL TOOL POLICY here](#)

1. Configuration

Students' iPad®s that are not appropriately **configured by the school** for learning and wellbeing, **will not be accepted on the school premises.**

The school's technical engineers configure the iPad® as a pedagogical tool with all necessary applications and files for learning, which **will not allow installation of a personal choice of applications from the family's or the student's Apple store.**

Instead, a selection of approved pedagogical apps are available to install at school.

The storage will not be sharable with the family's Apple ID(s) as long as the iPad® is used as the pedagogical tool.

Purchasing the iPad® from the school is optional. However, any personal iPad® provided by the family to become the pedagogical tool will have to be configured by the school's technical department. Please refer to the detailed information in point 3. [Personal Device iPad Configuration – BYOD iPad®](#) on page 2.

2. Purchase orders through BFIS-ICE

2.1. Purchase : on or before August 09th, 2026, upon request to IT@icedubai.org

iPads® ordered through BFIS-ICE will be configured and then delivered to the child on the first day of school, or, may be collected by parents between August 19th-22nd, at a time coordinated by email with the IT dept..

2.2. Two **ICS iPad Packages** are possible:

BFIS-ICE has partnered with ICS offering two **Combo Educational Packages**

Combo Package 01: iPad® 11th GEN **128GB** - 11" A16 Chip 2025 Model, 3D Smart Protection foldable cover, 'Service Support' for two academic years, MDM configuration license, license installation & school configuration setup, all educational programs installed, and administration fee, for a total of 2,545.00 AED (VAT 5% & Admin Fees AED 69.98 included)

or

Combo Package 02: iPad 11th GEN **256GB** - 11" A16 Chip 2025 Model, 3D Smart Protection foldable cover, 'Service Support' for two academic years, MDM configuration license, license installation & school configuration setup, all educational programs installed, and administration fee, for a total of 2,945.00 AED (VAT 5% & Admin Fees AED 80.98 AED included)

Benefits of purchasing the iPad® through the school:

This procedure simplifies device configuration and software installation, significantly enhancing cybersecurity for iPad® use.

Configured iPad®s will be delivered directly to your child at school, complete with all necessary protection software. ICS Care offers immediate replacement, lower repair costs, and data restoration compared to AppleCare®.

3. Personal Device iPad Configuration - BYOD (Bring Your Own Device)

Parents who wish to provide their own device (iPad® minimum 8th generation, 128GB storage) must book an appointment with the school's IT through the link: [iPad Configuration BookNow](#)

Kindly bring your device to school on or before August 22nd, 2026 to allow enough time for the configuration.

For students joining during the school year, please allow 5 working days for the configuration.

Price: AED 495.00

Included:

- Pedagogical tool configuration of the device for two years
- Subscription to "Care for Personal Device iPad® Configuration" for two years
- Data restoration, including essential Apple System Manager software for the classroom

Kindly note the points below before proceeding with bringing your own iPad®:

1. Service charge to configure your personal device - 495 AED
2. Backup: Please **save your personal data** on an external device or personal cloud.
3. Erase/remove your iCloud account, personal pictures and information, all the added content and settings from the iPad®.
4. Bring the device to the Technical IT Department into its *initial settings* stage.
5. School Personal Device Configuration for the iPad will take 20 mins to 30 mins.
6. From then on, the school supervises the iPad and regularly installs required applications for education through MDM (LICENSE IPAD MDM Mobility Device Management, included).
7. The configuration includes:
 - 200GB of iCloud storage via school Apple ID.
 - Temporary iPad® replacement in case of failure for 10 days
 - Installation & Setup Licenses & all Educational Programs required
8. In case the device is misplaced or lost, the school may use the Location Finder to locate it.
